

maXmas Guidebook

Login page

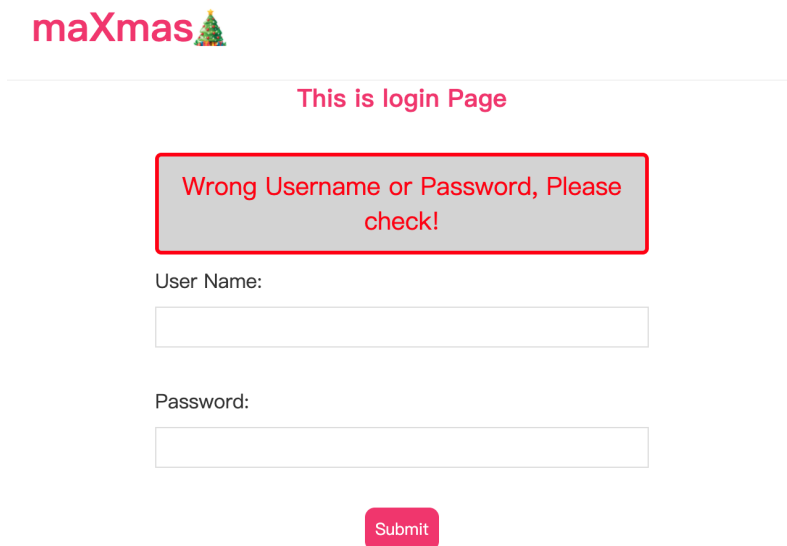

Visit the deployed website on:

<https://lit-basin-99044.herokuapp.com/>

Enter correct username and password to enter the web page.

A screenshot of a web browser showing the login page of a website called 'maXmas'. The browser's address bar shows the URL 'lit-basin-99044.herokuapp.com'. The page has a pink header with the 'maXmas' logo and a Christmas tree icon. Below the header, the text 'This is login Page' is displayed in pink. There are two input fields: 'User Name:' and 'Password:'. Below the password field is a pink 'Submit' button.

If a wrong username enter, a WARNING sign would appear for 5 seconds to remind the user to re-enter a correct credential.

A screenshot of the same login page as above, but with an error message displayed. A red-bordered box with a grey background contains the text 'Wrong Username or Password, Please check!'. The 'User Name:' and 'Password:' input fields and the 'Submit' button are still visible below the error message.

Section page

When the user has a login to the website, the user would be directed to the selection page. On this page, the selected products with quantities would be displayed associated with the child information who made the selection as below.

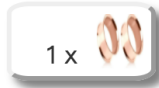

Hi kevin, welcome come back to maXmas!

Child 4

Child 5

OFFER: buy 2 identical products to have 20% discount for that product!

OFFER: buy 3 identical products to have 30% discount for that product!

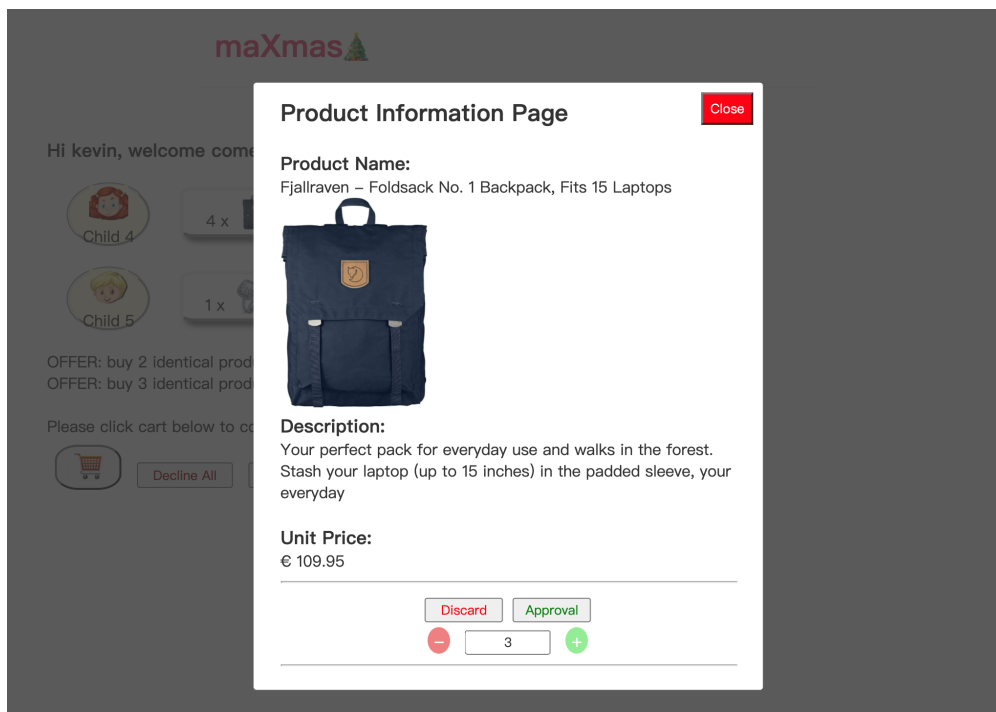

Please click cart below to complete check out!

Decline All

Approval All

The user could click each product box to view the details of the product with its price and change the quantities of the selected products on a popup box.

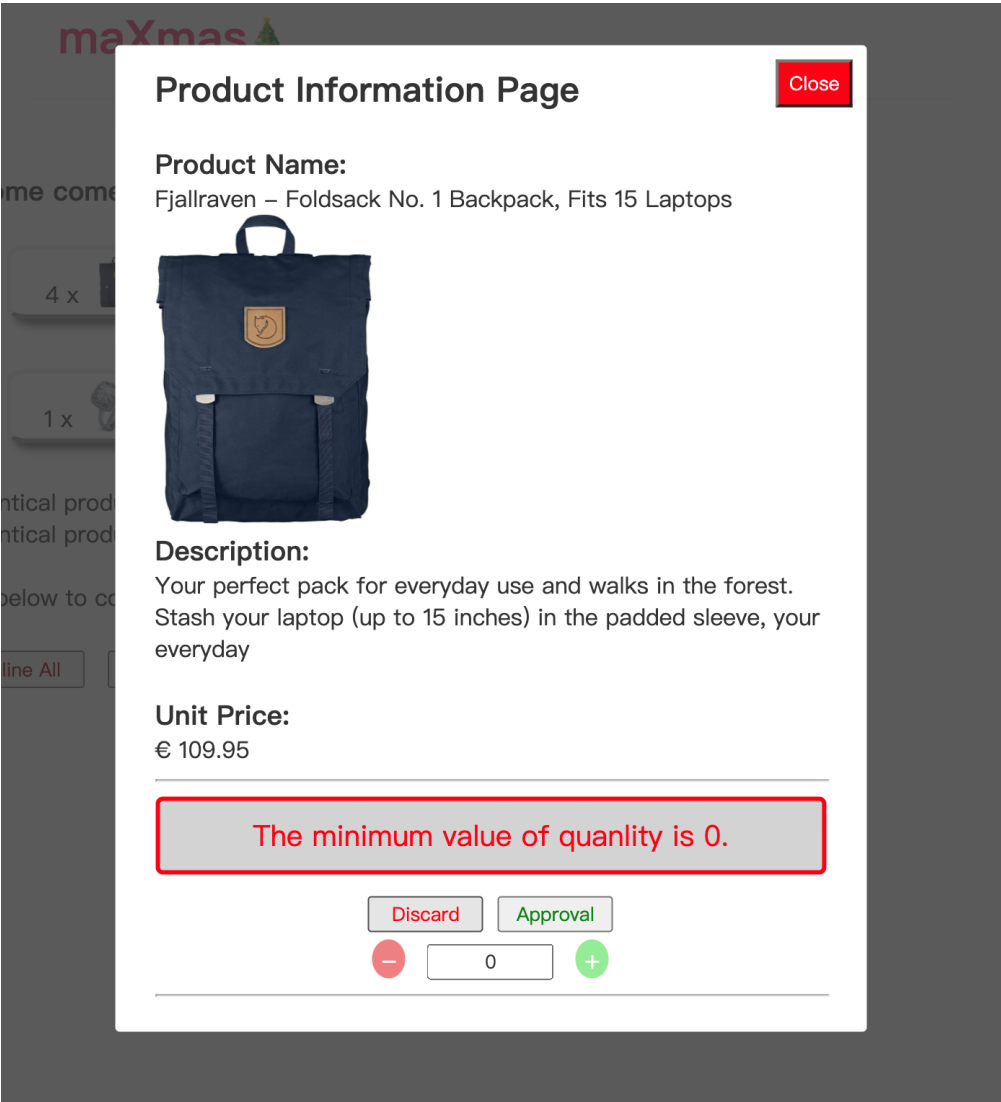

The quantities would be changed by clicking the + or – button. if the user keeps clicking the – button after the quantities have already reached 0, a WARNING sign would appear to remind the user, then it would disappear in 5 seconds.

Click the "Discard" button to set the quantity to zero

Click the "Approval" button to approve the selected quantity. The approved quantity would be adjusted accordingly on the selection page

After completing the approval process, click the "Close" button to close the popup box.

Return to the selection page, the adjusted quantities have been shown with each selected product.

The user would "Discard All" to set all the selected products to quantity zero or click "Approval All" to confirm selections

There is also a Cart button. by clicking the "Cart" button, the user would be redirected to the product billing page.
